Contents of Volume 29 (1995)

Vol. 29, No. 1

Research Paper:
J. Bacher: Goodness-of-fit measures for multiple correspondence analysis 1–16
C.W. Roberts and D.R. Hoyt: Models and trends of log-linear association 17–37
M. Morales: Uses of qualitative/quantitative terms in social and educational research 39–53
M. Hammersley: Theory and evidence in qualitative research 55–66
D. Lester: Combining opposing methodologies in studies of suicide and homicide 67–72
W. Foddy: Probing: A dangerous practice in social surveys? 73–86
T.F. Liao: The nonrandom selection of don't knows in binary and ordinal responses: Corrections with the bivariate probit model with sample selection 87–110
Announcement 111–112

Vol. 29, No. 2

Research Paper :
V.V. Shvyrkov: The new approach in the analysis of 2 x 2 tables 113–124
P. Doreian, K.L. Woodard, and W.-B. Kuo: Using a highly portable computer to gather qualitative social network data 125–139
S. Coleman: Dynamics in the fragmentation of political party systems 141–155
R. Franzosi: Computer-assisted content analysis of newspapers *Can we make an expensive research tool more efficient?* 157–172
J. Bring: Variable importance by paritioning R^2 173–189
G.A. Evans and A.F. Heath: The measurement of left-right and libertarian-authoritarian values: a comparison of balanced and unbalanced scales 191–206
Research note :
B. van den Putte, W.E. Saris, and J. Hoogstraten: Measurement with multiple indicators and psychophysical scaling in the context of Fishbein and Ajzen's theory of reasoned action 207–222

Vol. 29, No. 3

B. Nickel, M. Berger, P. Schmidt, and K. Plies: Qualitative sampling in a multi-method survey 223–240
I. Bomze and W. Gutjahr: Estimating qualifications in a self-evaluating group 241–250
T. Raykov: On statistical approaches to the study of the "Law of Initial Values" 251–271
R. Popping: The performance of a knowledge-based system for converting occupational classifications 273–286
B. Agozino: Methodological issues in feminist research 287–298
W. van der Vaart, J. van der Zouwen, and W. Dijkstra: Retrospective questions: data quality, task difficulty, and the use of a checklist 299–315
A.G.L. Romme: Boolean comparative analysis of qualitative data 317–329
Research note :
A. Sánchez-Bruno and C. San Luis-Costas: A statistical analysis of seven multipliers for linear congruential random number generators with modulus $2^{31}-1$ 331–337

Vol. 29, No. 4

Massimo Buscema: Self-reflexive networks: Theory • Topology • Applications 339–403
Gerhard Tutz: Competing risks models in discrete time with nominal or ordinal categories of response 405–420
Robert M. O'Brien: Generalizability coefficients are reliability coefficients 421–428
David Lester: The social meaning of female participation in the labor force 429–432
Research note:
Björn S. Stefánsson: On the fundamental thought behind voting rules 433–438
Author index 439
